1. You are advised that there has been no change in the space and facilities occupied by this office since that discussed in our [REDACTED] of 17 November 1948, and pending further advice reimbursement should continue on the basis of the original agreement.
2. The Agency has made representations to the landlord, attempting to cancel that portion of their lease applicable to third-floor space, but disturbed political conditions have postponed negotiations for the time being. If and when such cancellation can be effected, our reimbursement commitments will be considerably lessened, and you will be immediately advised.
